

EdHOLA has been invaluable in helping me define my goals and changing my perception towards my career. Chandrika ma'am and Vipul sir have helped me analyse myself, nurture my strengths and work on my weaknesses. From the time I have joined EdHOLA, there has been no looking back. With their motivation and highly personalised approach, my two years at EdHOLA as their student has become a journey to be remembered for a lifetime.

At each given step of university applications, team EdHOLA has given equal importance to even the smallest nuances right from SAT/ACT preparation to choosing the right university from all my admits. Chandrika ma'am made sure that I applied to those universities that were the best fit for my personality, while Vipul sir made sure to bring out the best writer in me for each and every university essay. Their unsettling attitude for anything sub-standard has made me discover my true potential. I always look forward to discussions with Vipul sir, Chandrika ma'am, Ashwini ma'am and Vicky. They are able to strike a balance of careful listening with sharing their wealth of experience of ~~careful~~ ~~his~~ and ideas. They are quickly able to point the crux of any situation and do not fail to leave me with helpful insights, ideas or questions to ponder upon. But most importantly, EdHOLA has played a pivotal role in shaping my personality and making me DIVIJA from divija!
