

In about 5 months from today I will embark on a journey which would not be possible without the continued support, motivation and effort from Vipul Sir and team Edhola.

I started my journey with Edhola in November of 2018. Sceptical on how to pursue my dreams any help at that time would be highly appreciated - lucky of me that I got that help from Edhola. Edhola did not only help me through the admission process but also helped me moreover as a person. Edhola provides a perfect environment for an aspiring student. It provides you with an environment where you are comfortably uncomfortable, challenged and motivated all the time to achieve great things. Edhola is not just a counselling center, its a school. Joining Edhola was certainly the best decision I made.

Edhola provides services which are tailor made for every student. At Edhola my admission process was fun and enjoyable rather than tedious and monotonous. All my issues were, even the minor ones, were dealt with utmost attention. Vipul sir personally takes care of every application. His experience and guidance are surely an added advantage for every student at Edhola. He personally helps every student with university application, selection and essay. A thank you is surely not enough for his efforts.

I would like to thank Edhola for having my back on every step of the way. I would certainly be lost without them.
